SHARING INFORMATION TOGETHER

New Service supporting family members, friends and caregivers

Often helping a person living with disabilities to navigate life-long transitions and services to live their best life can be complicated, confusing, and time consuming when looking for resources.

Our new program, Sharing Information Together (SIT) sponsored by Hope Services, brings people together for monthly Zoom meet-ups, and later with in-person gatherings, to learn about resources, services, conferences, and other topics.

It is designed for family members, friends, supporters and caregivers of persons 15 years of age and older.

Sessions will feature one or more guests highlighting their services and addressing a variety of topics such as: Self-Determination, Trusts and Wills, Independent Living, Recreation/Leisure options, Assistive Technology, Power of Attorney vs Guardianship, and more.

The format encourages participants to share resources they have found valuable in addition to the presentation topics and these can include dentists and places to get haircuts as well as organizations and products. In-person meet-ups will also feature a Share Marketplace where people can bring items that they may no longer need, but can be helpful for others.

Join us for our November Zoom meet-Up
November 10, 2021 - 12:30 p.m. to 2:00 p.m.
